
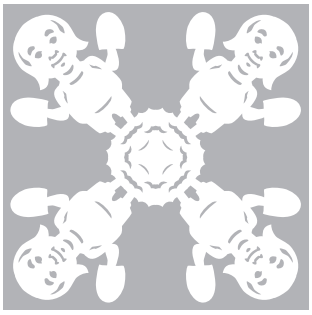
1. Cut out pattern at the squares edge. **2.** Fold paper at lines in order indicated. **3.** Cut out all grey areas. Use an X-acto knife for inner details.



BENJAMIN FRANKLIN

Benjamin Franklin (1706-1790) is one of the most influential thinkers of world history and the namesake of The Franklin Institute. His numerous career accomplishments stretched from politics and diplomacy to science and engineering. Franklin's inventions include bifocal glasses, swim fins and the lightning rod.
